College of Notre Dame

OF SAN FRANCISCO,

Dolores St., bet. 16th and 17th Streets, San Francisco.

THIS INSTITUTION, incorporated with Collegiate privileges, is under the direction of the Sisters of Notre Dame, a Society of Ladies, who enjoy here, as well as in the Atlantic States and Europe, an unrivalled reputation for the educational advantages afforded by their schools and colleges.

Eligibly situated in the suburbs of the city, and surrounded by spacious grounds which afford ample facilities, both for healthful exercises and amusement, the College has claims which can hardly fail to engage the attention of parents and guardians.

The scholastic year commences about the middle of July, and terminates about the first of June. It is divided into two terms of five months each.

Reports are forwarded monthly to the parents or guardians, indicating the class standing of their daughters or wards.

No exception is made to the admission of pupils on account of their religious tenets, nor is any undue influence exercised over them in this matter. For the sake of good order, however, all are required to attend the public religious exercises, and to observe the rules and regulations adopted for their improvement, and the maintenance of good order.

The correspondence of the pupils is subject to the inspection of the Superioress.

On Sundays, visits from parents, or such friends as they may formally authorize, are received between the hours of 10 and 12 A. M., and 3 and 4 P. M. Should it be found inconvenient to pay this visit at either of the above-mentioned hours on Sunday, a short visit between 3:30 and 4:30 P. M. may be received on Thursday. Parents and friends of the pupils are requested not lightly to infringe upon this rule.

A recess of one day (the second Saturday) in every month is allowed, when those pupils who are known to have received the sanction of their parents or guardians to that effect, may spend the day in the city among their friends; but all must return at the appointed hour in the evening.

No boarders will be received unless well recommended.

The course of instruction embraces two departments, viz: First—Elementary. Second—Collegiate.

The Elementary Department, which comprises six classes, is completed in six years. It consists of two primary, two intermediate and two grammar classes.

The Collegiate Department, which comprises six classes, is completed in six years. Two years are devoted to the preparatory classes, and four years to the four regular college classes.

Those pupils who wish to enter the college classes are required to pass a satisfactory examination in the studies prescribed for the preparatory classes.

Examinations are held semi-annually, reviews every month.

A library of choice standard works is open to the pupils, and every effort is made towards the improvement and elevation of their minds by a well-selected course of reading.

DIRECTIONS FOR KEY-HOLDERS.—Upon the discovery of a fire near your signal-box, turn the crank steadily to the right, forty times, then wait a few moments, and if you hear no alarm on the large bells, turn as before. If you still hear no alarm, go to the next box and give the alarm from that. Never open the box or touch the crank except in case of fire. Never signal for a fire seen at a distance. Do not give an alarm for a burning chimney. Be sure your box is locked before leaving it. Upon a second alarm being struck for the same fire it will be considered a general alarm. Second alarms will be turned in only by order of the Chief Engineer or his Assistants.

Keys of the signal boxes are deposited in the vicinity of each box, at such places as are indicated upon cards placed thereon.

The signal boxes in use consist of eighty-two crank boxes and seventy-seven automatic boxes. An alarm from an automatic box is given by pulling down the hook once and letting go, unerring mechanism doing the rest.

Complaints concerning the working of the Fire Alarm Telegraph, irregular striking of the bells and gongs, broken wires, etc., should in all cases be made at the Fire Alarm Office, Brenham Place.

In case of tumult or riot, whereby the services of the Police force are required, an alarm will be given, consisting of ten strokes upon the bells and gongs, repeated five times, which will be a signal for the Police to assemble at the old City Hall. This alarm will be given only by order of the Mayor or Chief of Police.

The telegraph apparatus consists of about one hundred and twenty miles of wire, divided into nineteen circuits, of which twelve are signal circuits, or circuits running to the signal boxes. Alarm gongs are located in the different Engine, Hook and Ladder, and Hose houses, each connected with the Central Office by the fire alarm circuits and eight alarm bells for striking the alarm box, located as follows: One on the Hall of the Exempt Fire Co., one on the Engine House on Sixth street, one on the Engine House on Stockton street, one on the Engine House on Second street, one on the Engine House on California street, one on the Engine House on Sixteenth street, one on the Engine House on Bryant street, and one on the Engine House on Pacific street. The bells and gongs are each struck at the same time by electrical machinery.

about thirty pupils, taught by a Mr. Marston, who is, therefore, the pioneer teacher of the city. Late in the same year the citizens organized a public school, and erected a building on the southwest corner of the Plaza, now Portsmouth Square. In April, 1849, the Common Council established a public school, and John C. Pelton and wife were employed as teachers, and this was the beginning of the system which has continued to the present time. During the fiscal year of 1880-1881 there were 62 schools, employing 719 teachers, and having an enrolled attendance of 40,187 pupils, of whom 21,435 were boys, and 18,752 girls. By the report of the School Census Marshal, June 30, 1881, the number of youth in the city under seventeen years of age is 75,386, being a decrease for the year of 4,820. The number between five and seventeen who are entitled to draw school money is 55,115, a decrease of 3,377 for the year. The number attending private and church schools only, during the year (not including Chinese) was 5,731, a decrease during the year of 921. The number between five and seventeen years of age (not including Chinese) who have not attended school at any time during the year was 12,973 a decrease from the preceding year of 1,855. The last exhibit—of children not attending any school—is worthy of note. The enrollment at the different schools was as follows: High schools—Boys, 325; girls, 850; total, 1,175. Grammar schools, including some Primary grades—Boys, 6,592; girls, 7,112; total, 13,704. Primary schools, including some Grammar grades—Boys, 11,508; girls, 10,289; total, 21,797. Evening schools—Boys, 3,010; girls, 501; total, 3,511. The financial condition of the Department is represented as follows: The city tax for school purposes in the year 1880-81 was 17.02 cents on each $100. The total income, including cash on hand at the beginning of the year was $902,485 66, a decrease from last year of $65,246 34. The expenditures were $827,323 71; increase for the year $18,191. The amount of expenditures, $875,448 47, published last year included $66,315 75 paid on account of 1878-79. Cost of instruction per pupil, based on the enrollment, and excluding expenditures for buildings, $18 76. Cost of instruction per pupil, based on average daily attendance, and including expenditures for buildings, $28 43. The amount paid teachers' salaries, $621,354 62; a decrease from the preceding year of $17,904 42. The estimated value of school property is: School sites, $1,930,000; buildings, $975,000; school furniture, $195,000; libraries, $12,000; school apparatus, $25,000. Total, $3,137,000.

COSMOPOLITAN SCHOOLS.—Professor Herbst reports there are three Grammar and three Primary Schools, in which instruction is given in French to 416 pupils, and in German to 1,924 pupils, besides the English course prescribed for all the Common Schools of the city. There are eight special teachers of German and French, whose aggregate salary amounts to $7,200. There are 67 classes in which German or French is taught; 44 of these are taught by special teachers, and 23 by class teachers holding German or French certificates. The three Grammar Schools in which French and German are taught are the North Cosmopolitan, Hayes Valley and South Cosmopolitan, and the Primary are the Bush Street, South Cosmopolitan and Greenwich Street.

EVENING SCHOOLS.—Mr. Charles H. Ham, Principal of Evening Schools, reports the number of pupils enrolled during year ending December 31, 1881, at 3,511. Average daily attendance, 880; average number belonging to Evening Schools, 1,048. The terms and holidays are the same as those of the day schools. The studies are reading, arithmetic, penmanship and composition or letter-writing, bookkeeping, industrial drawing, mathematics, etc. The study of Spanish has been added during the present year, and at this time there are four classes of sixty pupils each, who receive lessons alternate evenings, from two teachers appointed for that purpose. The total number of classes now in the schools are twenty-eight. The highest number during the year having been thirty. The Evening Schools are held at the Lincoln, Mission and Washington Schools.

CONSTITUTIONAL CHANGES.—The new Constitution brings numerous changes in the Public School system. It recognizes evening, technical and normal schools as properly belonging to the Common School system, and makes high schools and cosmopolitan schools practically independent of the State, but dependent upon the city for their establishment and support. The Board of Education (Section 7) will have control of the schools, selecting text-books, direct the examination of teachers, and, unless done by the Legislature, will prescribe the course of studies, which may include all the studies of the high schools. The changes in the examination of teachers and the selection of text-books are important.

SCHOOL HOUSES.—The following school house was completed during the year: Ewing Primary—cost, $35,543 15. The total number of buildings used by the Department is 70, of which 65 are owned by the city and 5 rented. Of those owned by the Department, 8 are of brick and 57 are of wood. The amount paid for rented rooms was $5,756 60.

Colleges and Private Schools.

Notwithstanding the excellence of the free public schools of the city and State, their exemption from direct cost to the pupil or parent, and the great interest taken in them by the public as the nurse and strength of our free institutions, colleges and private schools of great wealth, popularity and importance rise and prosper. That such institutions exist, show the great interest taken in educational matters. The public and private systems are rivals, each stimulating the other, and setting examples of enterprise, management, salaries, edifices, progress and standard of scholarships. There are in San Francisco about one hundred private schools, in which term are included the select school of a few pupils, the seminaries, commercial schools, academies, convent schools, and colleges, with their thousand students. The Census Marshal reported the number of youth attending private and church schools in this city in June, 1881 (not including Chinese) at 5,731. Many of the private schools having edifices of great capacity, cost and grand architectural appearance.

The school is free of charge to all denominations. It was opened on the 24th of May, 1869, and the number of pupils increasing, made it necessary to enlarge the building, and in 1870 the portion fronting on Ellis street was added. THE HASTINGS COLLEGE OF THE LAW.—This institution, which is in connection with and under the auspices of the University of California, owes its formation to the munificence of Judge S. C. SUGGESTIONS TO THE PUBLIC.

Facilities are given to the post-office officials in the discharge of their daily duties, and greater security afforded to the public, by careful attention to the following recommendations:

Make the address on letters legible and complete, giving the name of the post-office, county and State. The name of the street and number of the house should also be given on letters addressed to cities where letter carriers are employed; while the letter will eventually reach its destination without a number, the omission is often a cause of hesitation and delay. In the case of letters for places in foreign countries, the name of the country as well as the post-office should be given in full. Letters addressed, for instance, merely to "London," without adding "England," are frequently sent to London, Canada, and vice versa, thereby causing delay, and often serious loss.

FREE POSTAL DELIVERY.

The Free Postal Delivery System is similar to the one so successfully maintained in several of the large Eastern cities. There are sixty districts, each of which is in charge of a carrier, who delivers promptly all mail matter received at the Post Office, upon which is written the correct address, street and number of the party for whom it is intended.

All persons who desire their letters, etc., retained until called for, must leave their address at the Post-Office.

Gillespie, Mrs. Taylor, Mrs Joice, Mrs. A. Dubbs, and Mrs. O. C. Wheeler, Managers; Charles Gilmore, D. L. Ross, and S. Franklin, Trustees.

It originally occupied the building on the corner of Second and Folsom streets, owned by Gen. H. W. Halleck, whence they removed the children in March, 1854, to the present building, corner of Laguna and Haight streets, just then completed, at a cost of $30,000. This house, built of stone and brick, expressly for the purpose, is highly creditable to the institution, as one of the noblest monuments of San Francisco benevolence. During the years 1862–3, a large and convenient addition was made to the present building, at an expense of $30,000, which, together with the main building, will accommodate two hundred and fifty children. As a complement to the Sansome Hook and Ladder Co., who, upon disbanding, donated to the asylum the building and lot owned by them, the new addition is called the "Sansome Wing."

During the year 1879 the upper story of the building was fitted up, and for the first time in its history the entire capacity of the asylum has been made available. The present number of children in the asylum is two hundred and five.

In 1862 a farm of fifty-three acres, near Bay View, South San Francisco, was purchased, where there has been established a branch institution for very young children, called the St. Joseph's Infant Asylum. On this same tract of land a large and commodious wooden edifice, with all the modern conveniences, was erected in 1872. The present building is beautifully located on a hill, commanding an extensive view of the surrounding country. SAN FRANCISCO FEMALE HOSPITAL.—Location, 806 Stockton street. This hospital was opened for the reception of patients on the first day of April, 1868. The object of the institution is the care of poor, sick women. There is no rule as to the nativity, religion, or social condition. It is a charity in the broadest sense of the term. Any woman who is poor and sick is entitled to share its benefits. It is a general hospital for all diseases, and for lying-in. During the twelve years it has been open there have been nearly one thousand births. Of the whole number of births over fifty per cent. have been illegitimate, showing conclusively the need of such an institution, as, if it were not for this hospital, the probabilities are that the greater number would have shared the fate of so many thousands of innocents murdered in their mothers' womb. There have been besides a large number of patients admitted for general disease. There have also been a very large number of outside patients treated, the physician and surgeon being in attendance every morning from ten to eleven o'clock to treat any poor persons who may come. It was supported by voluntary contributions until 1870, when the State appropriated $5,000 a year for its support. In 1879 the appropriation was reduced to $3,000. During the past year this appropriation has been withdrawn entirely, consequently fewer patients will be admitted free. The Hospital is under the care of Dr. C. B. Hutchins.

The Trustees design to make this institution respectable in the highest degree. Efficient and available to patients from every county in the State, regardless of religious belief sectarianism or nationality. No one is required to pay more than her average cost to the hospital. It is expected that the institution will be supported by receipts from patients, donations and contributions from different sources, appropriations by the City and State Governments, and by bequests, legacies, etc. This is a special lying-in hospital, and for the specialties for which it was organized affords facilities not to be found elsewhere on this coast. No cases of disease are admitted for treatment. It is therefore expected to be kept free from erysipelas and other contagious diseases that are the bane of lying-in wards connected with general hospitals. Its locality, facing Jefferson Square, is not surpassed for salubrity by any other in the city. The building is thoroughly ventilated, and affords all the comforts of a private home free from intrusion. Competent nurses are in attendance day and night. Applicants must furnish satisfactory proof of having heretofore sustained a good moral character.

For consultation the attending physician will be found at the Hospital, 913 Golden Gate avenue, from twelve o'clock M. until one o'clock P. M., daily, or at his residence, 915 Golden Gate avenue, at nine o'clock A. M. and one and five o'clock P. M. Letters of inquiry should be addressed to Benjamin F. Hardy, M. occupied by one hundred and thirty children, who are receiving shelter and education beneath its roof. $45,000 has been expended in its erection, and about $100,000 in support of its inmates. It is in a complete and exact sense a public charity, openly inviting the homeless from all portions of the States of California and Nevada, to share in its beneficences. It derives its name from the fact of its erection by the Good Templars and its support by that Order. It is also under the control of the Grand Lodge of the Order, but its title is not meant to convey any idea of exclusiveness as to the class admitted to its sheltering offices. To be a homeless orphan is the only passport required at its portals. UBLIC STREETS, AVENUES, SQUARES, PLACES,

OF THE CONSOLIDATED

CITY OF SAN FRANCISCO,

IN ACCORDANCE WITH THE OFFICIAL MAPS, 1868, 1870, AND 1872.

EXPLANATORY.—The Ordinance for re-nnmbering the buildings of this city provides that "Market Street shall be the arting point for the numbers of all buildings fronting on the streets running therefrom in a northerly direction, and also those running therefrom in a southeasterly direction. The streets laid down in the official map of the city as forming e water front thereof shall be the starting point for numbers on all streets running westerly and southwesterly thereom, except upon such streets running westerly commencing from Market Street, and upon all such streets, Market reet shall be the starting point for numbers. On all streets the numbers on the right hand side, starting from the point beginning, are even numbers, and on the left hand side, odd numbers. One hundred numbers, or as many thereof as ay be necessary, shall be allotted to each block bounded by principal streets; numbers 100, 200, and 300 being respectely the numbers for commencing the blocks distant one, two, and three streets from the starting point on the side esignated for even numbers, and numbers 101, 201, and 301, in similar manner for the opposite side of the street, roughout its extent; so that the initial figure of the number placed on a building at any street-crossing shall indicate e number of main streets such street-crossing is from the starting point. Not less than twenty feet in frontage of all acant lots of ground shall be allowed for each number. On all cross or intermediate streets the numbering shall comence where said streets begin, and shall conform to the plan specified in this Order."

By this new decimal system of numbering buildings, the exact location of any number is readily ascertained; for ample, if you want to find 624 Montgomery, it is on the east side of the block extending from Clay to Washington, hich is the seventh from Market—Commercial and Merchant being private streets. Again, 825 Clay is on the ninth ock from the water front, which is the one extending from Dupont to Stockton. It must be borne in mind that one ndred numbers are allowed on each block between principal streets.

The following streets are but partially opened, and each differ materially from the plan originally laid out, viz: lementina, Ecker, Jessie, Minna, Natoma, Ritch, Shipley, Stevenson, and Tehama.

The territory lying west of Laurel Hill and Odd Fellows' Cemetery, and generally known as the Outside Lands, has cently been surveyed, and is designated on the new official City and County Map as avenues and streets. Those nning north and south are named respectively from First to Forty-ninth avenues, and those running east and west, First avenue to the Ocean, and parallel with Point Lobos Avenue, A to W streets.

Reference is frequently made in the Register of Names to the following, and which are located as follows: Hoadley's ddition, situated west of Pierce and between Geary and Washington; Horner's Addition, south and near the Mission olores; Western Addition, west of Larkin; San Miguel Ranch, southwest and near the Mission Dolores; Bernal Heights H.), south of Twenty-sixth Street, between San Bruno and San José Roads; and University Mound Tract (U. M. T.), est of San Bruno Road, five miles from the City Hall. *See, also*, Prominent Places, end Street Directory.

(*b*) Street not opened. (*c*) Fractional blocks, one hundred numbers allowed for first two blocks. (*d*) Fronting the ay. (*e*) Street ends. (——) Street does not cross. B. H., Bernal Heights. U. M. T., University Mound Tract. S. S. F., outh San Francisco. A blank is used where the number at the crossing of a street could not be ascertained.
